## Assessment Lists and Other Documents of Lancaster County Prior to the Year 1729.

About the only original Lancaster county manuscript documents, now known, dating before 1729 are: A certified copy of the petition for the erection of our county, signed in 1728; the letters, drafts, surveys and maps made by Isaac and Jacob Taylor, surveyors for William Penn's sons; some letters and other correspondence of John Wright, Tobias Hendricks, Edmond Cartledge, Robert Barber, and a few others; a few early patents, title deeds and other land contracts; a few road petitions and proceedings; some ancient wills and a few early assessment lists. All these, taken together, would make a very small volume, if reduced to print.

There is nothing at all in our Court House in manuscript form, dated before 1729. This is so because, prior to that date, we were part of Chester county. Indeed, there is very little, in the shape of manuscript, prior to 1750 in our Court House. Practically all there is to be found there are the Quarter Sessions and road records, the Common Pleas dockets, the appointment of constables, overseers of the poor and highways, the granting of

Paper read before the Lancaster County Historical Society by H, Frank Eshleman, Esq.

liquor licenses, and the minutes of the County Commissioners, and the records of wills, estates and deeds.

All of the assessment lists before 1750 are gone. I think the earliest list preserved of Lancaster town and borough is that of 1754. It is printed among our society's proceedings. At the time Mr. Samuel Evans wrote his history of our county, the assessments of several townships prior to 1750 were here, because he has copies of some of them in his book. But it is very probable that some of these lists were taken out for the printer of that work and have never been returned.

The Quarter Sessions and road and Common Pleas records are here because they are in docket form. But the old Common Pleas dockets are very frail. The first Commissioners' minute book is in fine condition.

Returning to the documents relating to our county before 1729, we may note that the record of laying out the roads (which began in 1719) are well preseved in book form in the Quarer Sessions Court of Chester county as to common roads. The future will owe a great debt of gratitude to Gilbert Cope for the collecting and binding of those records. There were several roads laid out, reaching into what is now our county, from 1719 to 1726.

I have made drafts of some of them. The records of the King's Highways are preserved in the Colonial Records, now in print. The original drafts and petitions and surveyor's notes before 1729 are very rare.

The original petition for the erection of Lancaster county has long since been lost; but a certified copy of it, made 175 years ago by John Wright, was found some years ago at Harrisburg, and it is printed in our proceedings and a copy also hangs in our Commissioners' office. Two petitions filed against the erection of the coun-

ty, noticed in the votes of assembly, are not in known existence. They were numerously signed by Germans.

The drafts and surveys of land here, containing much data, as to roads, woods, etc.; and the warrants for and returns of the same, are found by hundreds in the library of the Historical Society of Pennsylvania in Philadelphia, in the Taylor Papers. They include practically the whole county. Those ante-dating 1729 themselves make a good-sized list. In many cases five or ten, or even twenty-five separate tracts, are found in one connected draft. One who had the leisure and application could construct from them a map of our county, in 1729, showing where all the inhabitants owning land lived at that time.

The correspondence as to the early taking up of land, finding of minerals, conflicts of claims, the movement and activities of the Indians, etc., is also preserved in the original letters, etc. These, as a whole, illumine the early activities of our

people before 1729.

The minutes of land granting here, as well as in the other parts of Pennsylvania, from 1686 are printed in Vol. 19, Sec. Series of Pa. Archives. They give a great deal of side light light upon many early local movements here before 1729, such as the places of worship and the burial grounds, the mills and woodlands, etc. The manuscripts as to these matters are likely at Harrisburg.

The early patent deeds and other conveyances of land here before 1729 are, of course, in possession of the modern owners of the lands included in them; except also a fairly large percentage which may be found in the Historical Society at Phladelphia, in our own county records and elsewhere. Copies of many of the Taylor Papers are in our own library also.

The assessment lists of our county began in 1718. Those now in existence extend from 1718 to 1726, inclusive, except that of 1723. These lists were in the dark recesses of the basement of the Chester County Court House until 1879, when Gilbert Cope rescued them and much other valuable early history, just as the County Commissioners were about to sell them to the waste paper man, to "raise money for cigars," as Mr. Cope 'old me. The lists, of course, include only Conestoga (later East and Donegal and Conestoga), Pequea townships, as these large, partly-organized sections practically included the whole of the Lancaster county region then inhabited.

I have copied these assessment lists complete, and have them here with me this evening. They should be printed in our records, because they ought to be in the possession of our county. This is important for legal, historical, sociological and genealogical reasons; and also as aids in establishing complete title records of real estate. When we consider that for one hundred years Philadelphia was the only port of entry of the United States, through which the German-Swiss population swept into this country; and that from the valleys of the Susquehanna and the Schuylkill, these sturdy people spread out in ever-widening areas southwest, west and northwest, and established the German-Swiss populations of all the middle-western and the far-western part of this empire republic of ours. we can see the importance of a true and accurate list of the originals, of that people and of the townships in which they lived. This County of Lancaster, being the motherland of such a tremendous percentage of the whole Middle and Western sections of America, is sure to become more and

more important as the spirit of history awakens and arises in the robust and active, enterprising peoples of all those regions. Those Western people apply to us now for the early history of their race, and will do so more and more. We, here in Lancaster county, hold a much more dignified and eminent place, historically, sociologically, genealogically and economically, than we now realize. Great universities and libraries and other organizations apply to us for their former history, too.

We ought to own the originals of these lists, but that cannot be, for the owner (Mr. Cope) will not part with them, nor leave them to us at his death.

The lists which I have copied do not seem to contain all of the names of the male adults living here at the time. Then, too, for a year or two several names disappear and again appear in later years. It seems certain that a number of persons living on the extreme outskirts were missed in taking lists. The lists are confined to the townships I have named. There were people living here, not in the townships, as organized, but rather in the wilds, and they were missed. Then, too, a number lived across the Susquehanna, and were not taken into account because they were not ascertainable: and because Maryland claimed them, and for some years they adhered to Maryland. There is evidence of carelessness, too, in other respects, in the lists. And it may be that persons of very little property, paying little tax, were not taken. In fact, no one who lived on Pequea and Conestoga creeks were called upon for eight years after the original date of settlement to pay any taxes-not from 1710 to 1718. study into the many official laxities during the first and negligences

twelve years of settlement here makes it appear not unlikely that some citizens may have induced the assessor, for little consideration, to omit them.

·As to the people living here prior to the erection of our county in 1729, there are several sources of information. The letter of the original settlers here, dated 1710 in London, the statements of Melchoir Zeller, Hans Burki, and Benedict Brackbill, of 1710, giving lists of those going to Pennsylvania (Eshleman's German-Swiss Annals, pp. 148 to 160), the names which appear in the 1711 migration to Holland and thence here (do., pp. 172, 184, 188, 191), the land warrants found in the Pennsylvania Archives, Vol. 19, second series, the list in Rupp's 30 .-000 names, dating before 1718, and the naturalization list of those arriving in Lancaster county before 1718, in Vol. 4, Statutes-at-Large, p. 147, the records of the great immigration of 1717 (German-Swiss Annals, p. 203, etc.,), and the assessment lists above referred to of 1718 to 1726, inclusive, are the chief of these source books. There are seventy names on the naturalization list of those who came over prior to 1718 that do not appear on the assessment list of 1718. This shows the lists are not complete. Some of these seventy names, however, do appear on the assessment of 1719 and others on later lists. But it seems strange that they do not appear on the list of 1718, or on the other lists here produced.

The following persons who were here before 1718 (as is statd in the naturalization act above referred to), and whose names do not appear on the assessment of 1718-19, are:

The tax rate was three pence per pound this year. This is the earliest assessment list taken of any part of Lancaster county. "Conestoga" being the first organized territory in the county including all the land settled in the county from the Octoraro Creek to the Susquehanna River.

The "Freemen," that is single men, were all valued at 9 shillings each

The tax rate this year was three pence per pound valuation; and the same can be easily calculated on the above values.

This year 1720-21 Pequea township was formed out of the eastern part of Conestoga. It thus became the second township in what is now Lancaster county.

#### 1721.

"Collectors in the several districts in the county—what they are charged with this present year 1721."

Tax rate was three pence per pound. At the end of the book appears a statement signed by James Mitchell, Thos. Edwards, Sam. Lewis, Caleb Copeland & Jo. Brinton, saying these are the rates in Chester county, of three pence per pound, and lands and stock; and nine shillings a head poll, upon single men of the second, third and fourth days of January 1726-27.

The total tax of Conestoga was 12,124 pence, being three pence in a pound valuation, making a valuation of 4,041 pounds. This shows an average worth of each of the 259 taxables to be 15 and 6-10 pounds. Donegal and Pequea averaged about the same.

### MINUTES OF SEPTEMBER MEETING.

Lancaster, Sept. 1, 1916.

The membership of the Lancaster County Historical Society took a big jump on Friday night when the names of twenty-seven persons, both in the city and county, were proposed. It was the largest number of applications ever presented at one meeting, and no doubt was brought about by the efforts being made to better acquaint the public with what the Society is doing, notably through the annual outing held in June at Miss Grubb's place at Mt. Hope and the social function held in May at the Brunswick.

The Society resumed its work for the winter last evening with a good attendance of members. President Steinman was in the chair. Miss Bausman, the Librarian, reported a number of very valuable special donations received since the June meet-

ing, as follows:

Bound Volumes—Bureau of American Ethnology, 29th and 30th Annual Reports; Early Records of Albany, from the New York State Library; Pennsylvania Archives, Vol. V of the Seventh Series, from the Pennsylvania State Library; One-Sided Autobiography, from Prof. L. Oscar Kuhns; List of Newspapers in the Yale University Library; Annual Report of the Smithsonian Institute, 1915.

Magazines and Pamphlets—American Philosophical Society (four numbers); American Catholic Historical Society; Pennsylvania Magazine; Washington Historical Quarterly; Historical Society of Frankford; Lebanon County Historical Society (two numbers); Snyder County Historical

Society Bulletin; Linden Hall Echo (two numbers); Twentieth Anniversary Souvenir of Emanuel Lutheran Church; Classification of Books in the Library of Congress on Universal and Old World History; Bulletin of the New York Public Library (four numbers); Bulletin of the Grand Rapids Public Library (three numbers): Bulletin of the Carnegie Library, Pittsburgh (two numbers); Twentieth Annual Report of Carnegie Library, Pittsburgh.

Special Donations-Early Ephrata Imprint, from Miss Anna Neuhauser, Millersville; Five Lancaster Imprints, from the Y. M. C. A. Library; Two old newspapers, from Mrs. J. W. Staman; Large number of old newspapers, from Miss Gearhart, of Lock Haven; Valuable old Lancaster pamphlets belonging to the 1776-1796 period, from Dr. D. W. Nead, of Reading; Copy of the "Inquisition of Three Indians Murdered in 1730," from Mr. C. E. Postlethwaite; Old nails from the Fish Mansion, built 1700, and located on Long Island, this place being used as headquarters by the British during the Revolution, from Capt. E. E. Stokes, of Brooklyn.

The volume from Dr. Nead has been nicely bound and will prove a valuable addition to the Society's library. Included in the volume are several pamphlets presented by F. R. Diffenderffer.

The following were proposed for membership: Mrs. John A. Goll, 607 North Duke street, Lancaster: Rev. S. M. Mountz, New Holland; Mrs. Florence B. Gibble, Lititz; Henry R. Gibble, Lititz; Mrs. Margaret Reilly Brown, Lancaster; Justice J. Hay Brown, Lancaster; Prof. W. R. Parmer, Denver; Guy K. Bard, Ephrata; Christ F. Wissler, Lincoln; Harry L. Wealand, Clay; Adam Mellinger, Clay;

A. E. Lane, Clay; Rev. S. G. Zerfass. Ephrata; Mrs. C. E. Netscher, 609 West Orange street, Lancaster; C. B. Hart, 437 West Orange street, Lancaster; Miss Salome B. Rhodes, 601 West Orange street, Lancaster; Miss Adelaide Trosh, 449 West Orange street, Lancaster; Miss Emma Groff. 303 West King street, Lancaster; Miss Grace A. Foster, 449 West Orange street, Lancaster; Miss Mary L. Hoover, 303 West King street, Lancaster; Miss Virginia Bladen Clark, 227 East Orange street, Lancaster; Mrs. John T. Todd, 422 North Duke street, Lancaster; Mrs. J. C. Russell, 110 East Walnut street, Lancaster: Mrs. Walter C. Herr, 110 East Walnut street, Lancaster; Walter C. Herr, 110 East Walnut street, Lancaster: Mrs. Harry E. Edgerly, 842 Marietta avenue. Lancaster.

These persons were elected to membership: Miss Emma Hastings, Miss Mary C. Russel, Dr. B. F. L. Swarr, Dr. and Mrs. L. K. Knight, Prof. A. C. Wertsch, Lancaster; D. M. Landis, Long Lane; Mr. and Mrs. Henry Boettcher, of Neffsville.

Hon. Thomas L. Montgomery, State Librarian, was elected an honorary member.

D. F. Magee, Esq., asked for the assistance of the Society in a work the Board of County Commissioners is taking up, the cataloguing in convenient form of all the old documents in the Court House that relate to the early history of Lancaster county. The Commissioners have secured the assistance of the Bar Association and with the historians lending their help it is believed that the old records can be placed in such shape that their value can be greatly increased. The Society appointed Mr. Magee, Mr. Eshleman and Mr. Arnold a committee to work with the Commissioners.

work will be under the direction of Commissioner Magee.

The paper of the evening was prepared and read by Mr. Eshleman and was based on the early assessments of the townships of Lancaster as found in the records of the Chester county Court House. These lists will prove of great value to the Society, especially in the matter of research, as they give the names of the very first settlers in this section.

The annual pilgrimage of the Lancaster County Historical Society was taken to the fine ancestral mansion of the Grubb family at Mount Hope, near the Lebanon county line, on Saturday, June 24. The historians and their friends, about three hundred in number, were entertained there as guests by Miss Daisy Elizabeth Brooke Grubb. They journeyed to the place by train and automobile and had a most enjoyable time on the historic premises.

Miss Grubb proved, as always, a most gracious hostess. The early hours of the afternoon were given over to an informal reception and social gathering. An interesting programme was rendered at 2 o'clock. Hon. Charles I. Landis, presided. The main features were: A cornet solo, "Assembly;" singing, "America;" invocation by the Right Rev. James Henry Darlington, Bishop of the Diocese of Harrisburg in the Episcopal Church; address by T. Roberts Appel, Esq., "The History of Mount Hope Since 1784;" singing, "Columbia, The Gem of the Ocean;" an address, Col. James Burd." by Dr. John W. Jordan: singing, "Come, Thou Almighty King;" an address, "The Purpose of a Historical Society," by Wm. H. Keller, Esq.; benediction by Rev. A. Alun Hughes; singing, "Auld Lang Syne;" and a cornet solo, "A Perfect Day."

In his excellent paper, Mr. Appel treated of the Grubb family at considerable length and dwelt upon the historic buildings on the premises. These are: The mansion-house, the chapel and the furnace. Speaking of these briefly, the speaker said in part:

"The furnace was erected in 1784 and 1785 by Peter Grubb (great grandfather of the present owner) a son of Peter Grubb, the pioneer and discoverer of the Cornwall Iron Hills and the builder of the furnace there and the forge at Hopewell on Hammer Creek, where he lived. The frunace stands to the east of the mansion-house, at the foot of a most picturesque ravine on the banks of the "Chickasalunga" and after being operated continuously and successfully as a charcoal iron furnace by the Grubb family for a round century, went out of blast in 1885—a generation after its neighbor at "Elizabeth" and "Hopewell" and "Speedwell" forges on Hammer Creek ceased to be operated.

The mansion was erected in the year 1800 on a knell rising out of the foothills of the "South Mountain," along the highway leading from Lancaster through Manheim and Cornwall to Lebanon, by Henry Bates Grubb, owner of Mt. Hope Furnace, Mt. Vernon Furnace, Cordorus Iron Works, and the thousands of acres of land surrounding each, as well as joint owner of Hopewell Forges and Cornwall Mine and Furnace.

To the south, and separated from furnace and mansion by a park, of mid-England appearance, stands "Hope Church," built in 1845 by Harriet Amelia Buckley Grubb, daughter of Daniel Buckley, ironmaster of "Brooke Forge" in Salisbury township, the widow of Henry Bates Grubb; since largely supported and maintained by the Grubb family; lately en-

larged and improved by Miss Daisy Elizabeth Brooke Grubb, the present owner of the estates.

"Hope Church" is the mother church of the Episcopal churches at Manheim, Lebanon and Colebrook, and with t'e ancestral home, receives, with the tenderest solicitude and affection, the care of our most gracious hostess on this occasion.

Handsome and artistic souvenir booklets of the buildings and premises, and products of the furnaces in the past, were prepared for the visitors by Walter C. Hager.

The committee which arranged the event consisted of Hon. Charles I. Landis, Chairman; Miss Daisy E. B. Grubb, Miss Martha B. Clark, A. K. Hostetter, L. B. Herr and Walter C. Hager.
